

PARIS ANARCHISTS.

The Authorities of the French Capital Thoroughly Alarmed

OVER THE RECENT EXPLOSIONS

Of Dynamite—President Carnot Takes Action—A Bill Making it a Crime Punishable With Death to Carry Explosives—Several Arrests Made and the Police Still Seeking More Suspects.

PARIS, March 16.—The excitement caused by the explosion at Lobau barracks yesterday has not yet worn off, and men may be heard talking of the affair in the cafes and wherever the public congregates. This the latest outrage has awakened the government to the fact that extreme measures must be adopted to suppress the anarchists, and that the most severe punishment must follow detection. The police have, therefore, been notified that they must detect the perpetrators of these cowardly crimes.

Paris has always boasted of her secret police and yet with all their facilities of gaining knowledge of the movements of lawless characters, they have found nothing that would lead to the arrest of the men whose bold effrontery and seeming contempt for the police is causing consternation among the people of Paris.

M. Loubet, the prime minister, had a long conference to-day with the prefect of police and the magistrates who are conducting the inquiry into yesterday's outrage, and it was decided that the residences of all anarchists should be searched. Whenever arms, explosives or seditious documents are found the occupiers of the place will be arrested. There is no denying the fact that the incidents of the last month have caused a general feeling of uneasiness among all classes of society. No one can form an idea as to where the anarchists will make their next attempt in their war against society, and the only thing that can be done is to exercise redoubled vigilance to thwart them. Following this policy of defense, the government has ordered that in addition to the regular guard a secret guard be placed at all the public buildings and military posts. As a matter of precaution, also, the guards at the Bank of France have been increased.

Several of the more prominent anarchists who have attracted police attention by violence of their denunciation were arrested at their lodgings this morning but no papers of any importance were discovered.

Additional search warrants were subsequently issued and the police are engaged in making a thorough search of the houses known to be occupied by anarchists. Thirty-five lodgings have already been closed, examined and five of the occupants have been arrested. The search is still going on.

Schneider to Hang To-day.

VIENNA, March 16.—The emperor has confirmed the sentence of death passed upon Franz Schneider whose crime of deceiving servant girls to his home in the suburbs of Vienna and then, with the aid of his wife Rosalie, outraging and murdering them, caused such a great sensation in this city recently.

The emperor, who has a strong dislike to capital punishment, not a woman having been executed in the empire since 1808, followed his usual course in this case and commuted Mrs. Schneider's sentence to penal servitude for life. Schneider will be hanged to-morrow.

The Russian Bank Failure.

ST. PETERSBURG, March 16.—Several newspapers to-day declare that a favorable settlement of the affairs of J. E. Juenburg, the Hebrew banker whose failure was announced yesterday is assured. Fournes. The cause was a letter which Marquis published some time ago reflecting upon the character of M. Isaac. CITY EVANGELIZATION.

A National Union Formed in Pittsburgh.

All Parts of the Country Represented.

PITTSBURGH, March 16.—A conference of representatives of the M. E. church from all parts of the country to form a national union of city evangelization began in the Smithfield street church this morning. William Deering, of Chicago, called the conference to order, and after the roll of delegates had been made up, the following permanent officers were elected: President, John Truesdell, of Brooklyn; secretary, J. K. Clark, of Cincinnati.

The convention then listened to three minute reports from the cities represented. All the cities made encouraging reports, showing large increase in the number of missions, converts and Sunday school scholars.

A plan of organization was then adopted. It recommends a general union composed of representatives from the various unions, and the preparation of a memorial to the next general conference asking that the purposes of the organization be inserted in the discipline of the church.

The chiefs of their organizations are in conference with the management at Montreal and it is stated that if the result be favorable the trainmen similar demands will be made on all the great railroads in America. The Grand Trunk employees in Toronto are confident of success, notwithstanding the action of the Canadian Pacific railway in discharging the conductors and brakemen on its western division who were concerned in a similar movement.

The land is nearly all occupied by settlers, and if the gang succeed in having the land office accept contest papers, bloodshed will undoubtedly follow.

COLUMBUS, O., March 16.—The Ohio Gas Light Association in session here to-day, with 150 members present, endorsed the action of eastern gas associations in resolving to use their influence to prevent the \$5,000,000 government loan to the World's Fair unless the world's fair commission deals more fairly with the gas people. They claim that the commission has set apart a million and a half dollars to make an electric light display and not a dollar for gas light exhibit.

Lovers of dogs from this city who visited the show saw over 600 dogs were exhibited, the different classes were fuller than last year and the show was better. The valuable pointer, "Dude N," owned by Shuttleworth and Ong, narrowly escaped being killed in Pittsburgh. Thirteen crates of dogs were hauled in one wagon to the Auditorium, and while on the way the one in which "Dude N" was carried fell from the top to the ground breaking the crate and hurting the dog very badly.
